Data Analyst
Data Scientist
Machine Learning Engineer

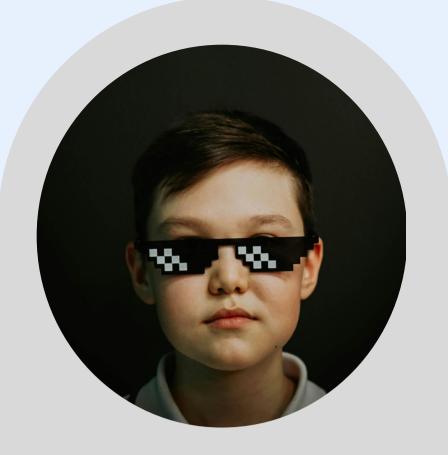

Bio

Aspiring Data Analyst and Data Scientist pursuing a BE in Artificial Intelligence and Data Science with a CGPA of 7.88. Passionate about machine learning, NLP, and predictive modeling, with hands-on experience from multiple internships and projects. Skilled in Python, data visualization, and web scraping, and proficient with tools like TensorFlow and SQL. Always eager to solve problems, explore new technologies, and create data-driven solutions

Age - 21

Education

BE - AI & DS

Interned at

Igurus, Yhills, Next24tech(Aicte)

Hobbies

Cyclying, Football

project

- Webscraping E-Commerce data
- Taxi Fair Prediction
- Ongoing - Object detection

Primary skills

- Data Analyts
- Data Visualization
- Data Scrapping
- Data Manipulation
- Machine Learning
- Artificial Neural Networks
- Natural Language Processing
- PowerBI

Goals

- Develop Expertise in AI & Data Science
- Contribute to Real-World Data Solutions
- Build a Career in Data Science Leadership

"
I believe good health is secret to my success

Technology

- Python
- MongoDB
- AWS
- Hadoop
- SQL
